Topic 1

Mr. Ronnel Agulto

April 18, 2026 | CPAG

- What was the seminar about?
 - Mr. Ronnel Agulto discussed Smart Cities Reimagined: Blockchain Enabled IoT for Sustainable Urban Living. He explained how blockchain and IoT can be used together to improve city systems, make services more efficient, and support sustainable living in urban areas.
- What were the top 3 lessons you learned?
 - According to Mr. Ronnel Agulto, blockchain helps secure data and makes information transparent.
 - He explained that IoT devices collect real-time data that can help manage traffic and services.
 - He also shared that combining technologies can make cities smarter and more efficient.
- What part was most interesting and why?
 - The most interesting part was when Mr. Ronnel Agulto explained how blockchain and IoT work together in real-life situations. It was interesting because it showed how technology can solve real problems in cities.
- How will you use what you learned?
 - From what Mr. Ronnel Agulto shared, I can apply this knowledge in future IT projects, especially in developing smart systems.
- What was the overall impact on you?
 - Mr. Ronnel Agulto's talk made me realize how important technology is in improving communities. It inspired me to learn more about smart city solutions.

Topic 2

Mr. Tom Oliver Chua

April 18, 2026 | CPAG

- What was the seminar about?
 - Mr. Tom Oliver Chua talked about *Intelligence Unleashed: Exploring the Future of AI and Machine Learning*. He explained how AI works and how it will shape the future of different industries. He also gave us tips on how to create a good resume and how to find jobs that match our skills and interests. He also taught us how to use AI properly and how to write effective prompts.

- What were the top 3 lessons you learned?
 - Mr. Tom Oliver Chua explained that AI can automate tasks and improve efficiency.
 - He said that machine learning allows computers to learn from data.
 - He also mentioned that using AI correctly, especially writing good prompts, is very important.
- What part was most interesting and why?
 - The most interesting part was when Mr. Tom Oliver Chua showed how AI can learn and make decisions. It amazed me because machines can act like human thinking.
- How will you use what you learned?
 - Based on Mr. Tom Oliver Chua's discussion, I will try to explore AI tools, practice writing better prompts, and improve my resume for future job opportunities.
- What was the overall impact on you?
 - Mr. Tom Oliver Chua's seminar motivated me to improve my skills and prepare for future technology trends. It also helped me understand how to present myself better when applying for jobs.

Topic 3

Mr. Bhrylle Justine Ramos

April 18, 2026 | CPAG

- What was the seminar about?
 - Mr. Bhrylle Justine Ramos talked about multimedia and shared his journey from being a gamer to becoming a multimedia artist. He also shared his experiences with the people he worked with and how it affected his growth. He also taught us what software we can use in multimedia.
- What were the top 3 lessons you learned?
 - Mr. Bhrylle Justine Ramos said that multimedia skills can be improved through practice.
 - He explained that creativity is very important in multimedia work.
 - He also shared that there are many opportunities in multimedia careers.
- What part was most interesting and why?
 - The most interesting part was when Mr. Bhrylle Justine Ramos shared his personal journey and experiences with his co-workers. It was inspiring because it showed that hard work and experience can help you grow.
- How will you use what you learned?
 - From Mr. Bhrylle Justine Ramos, I learned to practice my multimedia skills, try

different software, and be more creative in my projects.

- What was the overall impact on you?
 - Mr. Bhrylle Justine Ramos inspired me to explore multimedia more and become more confident in my creativity.
